Bouncing Face with Rotation

Wai Kit LAW (Kit)
w.law0820201@arts.ac.uk

Concept:

This is a round smiling face, and the action is like a bouncing ball. Try to practice extended and compressed expressions.

Reflection:

It was wrong to think about the next step while drawing, which leads to wasting a lot of time on subsequent corrections. Should spend more than half of the time on planning. with a complete plan, then I can fully implement it.
